

LIMB SALVAGE & ADVANCED WOUND CARE: TEAM APPROACH

DEVELOPED BY COMPLEX
CARDIOVASCULAR CATHETER THERAPEUTICS
“C3” & INTERVENTIONAL ACADEMY

Saturday, September 26, 2020
Hershey Lodge | Hershey, Pennsylvania

While arterial revascularization & establishing straight line flow may be the most critical step in amputation prevention, this is a multidisciplinary program focused on the practical, clinical approach necessary to formulate and implement treatment to address all aspects of the patient by the entire healthcare team to salvage a functional limb.

WELCOME FROM C³ COURSE CHAIRMAN

Dear Colleagues,

On behalf of the C3 Course Organizers, we wish you and your family good health and safety during the pandemic. COVID has changed our life and work-flow, however, our patients continue to suffer from the burden of critical limb ischemia, diabetic foot complications and amputations.

Our goal is to equip each member of the limb salvage community with innovations and resources to enable the best possible patient outcomes. Over the last two decades, we have worked together to prevent the burden of amputations in our own Central Pennsylvania community.

For the last 16 years C3 has brought together the world's finest arterial revascularization specialists and wound care experts. Many in the region were disappointed to miss our in person Florida meeting, and expressed an interest in meeting locally to collaborate. So with our shared mission and passion of purpose to save limbs, I present to you our first symposium in a series of Advanced Wound Care and Limb Salvage: Team Based Approach.

Interventional Academy, the continuing education arm of C3, has brought together the world's finest multidisciplinary experts in limb salvage and advanced wound care to our local event.

I sincerely hope that you will be able to join us and help develop this series into a recurring event in the Central Pennsylvania. We hope that you will actively participate by discussion, presentations and share your successes and challenges as we continue to develop these multidisciplinary sessions. Every precaution has been taken by the hosting facility to ensure the safety of your participation.

Thank you for your consideration. Space is limited, so please let us know if you can join.

To your good health,

Rajesh M. Dave, MD, FSCAI

PRELIMINARY FACULTY

COURSE CHAIRMAN

Rajesh M. Dave, MD, FSCAI
The Ortenzio Heart Center at
Holy Spirit Hospital

VIRTUAL SPEAKER

John S. Steinberg, DPM, FACFAS
Associate Professor, Georgetown

SPEAKER

Jeff Shook, DPM

VIRTUAL SPEAKER

Allen M. Jacobs, DPM
Dr. Allen M. Jacobs &
Associates, Ltd., P.C.

VIRTUAL SPEAKER

Cody A. Chastain, MD
Assistant Professor of Medicine, Vanderbilt
University Medical Center

VIRTUAL SPEAKER

Paul Kim, DPM
Medical Director, Wound
Program - Clements University

MODERATOR

Karli Richards, DPM
Richards Orthopaedic Center

MODERATOR

J. Paul Rogers, MD
UPMC Pinnacle Wound and Hyperbaric
Center

MODERATOR

Todd Harrison, DPM
Foot and Ankle Specialists of
the Mid-Atlantic Hospital

MODERATOR

Joseph Cardinale, DO
Joseph P. Cardinale, DO, P.C.

MODERATOR

Bryan W. Kluck, DO
Lehigh Valley Hospital

AGENDA

8:00 AM - 8:30AM BREAKFAST & REGISTRATION

8:30AM - 8:35 AM WELCOME & INTRODUCTION RAJESH DAVE, MD

SESSION 1

Functional Limb Salvage	John Steinberg, DPM
Discussion	
New Horizons for Revascularization in Limb Salvage: Part 1	Rajesh Dave, MD
Discussion	
Utilization and Importance of WIFI (Wound Ischemia Foot Infection)	Jeff Shook, DPM
Discussion	
Role of Noninvasive Perfusion Imaging	Paul Kim, DPM
Discussion	
Subtle Signs of Vascular Disease in the Elderly	Allen Jacobs, DPM
Discussion	

10:30 AM - 10:45 AM BREAK

SESSION 2

Culture Myths and Facts	Paul Kim, DPM
Discussion	
Empiric Antibiotic for Limb Salvage	Cody Chastain, MD
Discussion	
Recommended Imaging for Limb Salvage	Jeff Shook, DPM
Discussion	
New Horizons for Revascularization in Limb Salvage: Part 2	Rajesh Dave, MD
Discussion	

12:05 PM-1:05 PM MEET THE SPEAKERS LUNCH

SESSION 3

What I Want from My Surgeon!	Cody Chastain, MD
Discussion	
Antibiotics with Limited Surgery for Forefoot Osteomyelitis	Allen Jacobs, DPM
Discussion	
After the Intervention	Allen Jacobs, DPM
Discussion	

2:00 PM - 2:10 PM CLOSING REMARKS RAJESH DAVE, MD

CME INFORMATION

TARGET AUDIENCE

- Interventional Cardiologists
- Physicians
- Podiatrists
- Vascular Ultrasound Specialists
- Wound Care Specialists
- Nurse Practitioners
- Physician Assistants
- Radiation Technologists

EDUCATIONAL GOALS & OBJECTIVES

After completing this module, the participant will be able to:

- Present basic clinical approach to the vascular evaluation of lower extremity
- Be aware of the spectrum of interventions available for arterial revascularization
- List the medical and surgical options for the treatment of forefoot osteomyelitis
- Understand principles governing empiric antibiotic coverage of limb salvage infections
- Appreciate communication necessary between different specialties to maximize care
- Discuss subtle indications of vascular disease in the elderly patient population
- Describe and apply the process for determining limb salvage versus amputation
- Classify limb salvage patients based on wound, ischemia and infection to implement initial treatment and provide prognostication
- Outline progression of recommendations for radiologic work-up in the limb salvage patient
- Engage in pertinent dialogue with physician who performed revascularization in order to allow for early identification of problems and to maximize outcome

CONTINUING MEDICAL EDUCATION CREDIT

NYCPM is accredited by the Council on Podiatric Medical Education (CPME) to provide continuing education for the healthcare team. This activity has been planned and implemented in accordance with the accreditation requirements and policies of the CPME. NYCPM designates this educational activity for a maximum of 4.75 Credits. Physicians should claim credit commensurate with the extent of their participation in this activity. Non-Physicians participating in this activity will receive completion certificates.

This activity was planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Interstate Postgraduate Medical Association (IPMA) and Interventional Academy. The IPMA is accredited by the ACCME to provide continuing medical education for physicians. The IPMA designates this live activity for a maximum 4.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

REGISTER NOW: <http://bit.ly/C3LimbSalvage2020>

Space at this live activity is limited to 25 attendees on a first-come, first-served basis. Your registration fee of \$25 includes 4.75 hours of CPME programming, 4.75 AMA PRA Category 1 Credit(s), educational session materials, session WiFi and Meet the Speakers Lunch.

HOTEL ACCOMMODATIONS

HERSHEY LODGE

325 University Drive, Hershey, PA, 17033

The Hershey Lodge Main Number: (717) 533-3311

Interventional Academy / C3 Hotel Rate: \$199 Single or Double Occupancy

Reservation Cut-Off: September 7, 2020 or until rooms fill, whichever is first.

Reservation Method: Call 1-855-729-3108 and mention Interventional Academy C3 to receive the group rate.

COVID-19 PRECAUTIONS

HERSHEY LODGE HAS ENHANCED HEALTH AND SAFETY MEASURES FOR ITS GUESTS AND TEAM MEMBERS. GUESTS MUST FOLLOW ALL POSTED INSTRUCTIONS WHILE VISITING HERSHEY RESORTS:

- The number of guests permitted in public areas will be limited.
- Floor plan layouts and room capacities have been modified for C3 to allow for appropriate social distancing.
- Signage will be posted throughout the meeting/event space to direct foot traffic and remind guests of health and hygiene, physical distancing requirements, and proper face covering usage.
- Any shared equipment and/or meeting/event amenities will be sanitized before and after each use or will be single-use if they cannot be sanitized.
- High-touch surfaces and areas will be frequently cleaned and sanitized, including door handles, tables, chairs, light switches, computers, audiovisual equipment including microphones and podiums, trash receptacle touchpoints, and restrooms.
- Each meeting/event area will have hand sanitizer for attendee use.
- Linen items will be changed and laundered after each use.
- In-house contractors and vendors, including PSAV, will follow the same policies, procedures, and protocols as Hershey Resorts, including cleaning and disinfecting equipment after each meeting/event.
- At this time, all guests over two years of age and hotel staff members are required to wear face coverings in public spaces.
